### **Helpful Tips:**

\*A Uniform Commercial Code (UCC) is a “financing statement” filed to provide notice that a creditor has a security interest in a debtor’s personal property.

A boat has a total of 12 digits in the hull number and the last 2 numbers indicate the year of the boat.

EX: Hull number K2MA62A1J314 (belongs to a 2014 year model boat)

Motor number will vary and might include the number 0 and/or the letter O.

Trailer VIN has 17 digits like a vehicle.
